The New York City bike sharing system

System Data

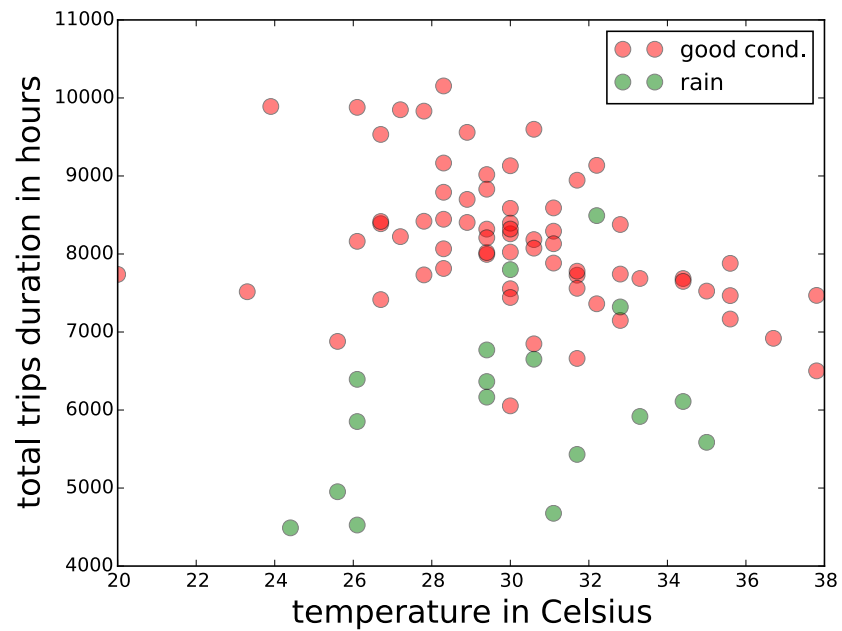

Where do Citi Bikers ride? When do they ride? How far do they go? Which stations are most popular? What days of the week are most rides taken on? We've heard all of these questions and more from you and now we are happy to provide the data sets to help you discover the answers to these questions and more. We invite developers, engineers, statisticians, artists, academics and other members of the interested public to use the data we provide for analysis, development, visualization and whatever else moves you.

The National Oceanic and Atmospheric Administration: the historical weather facts

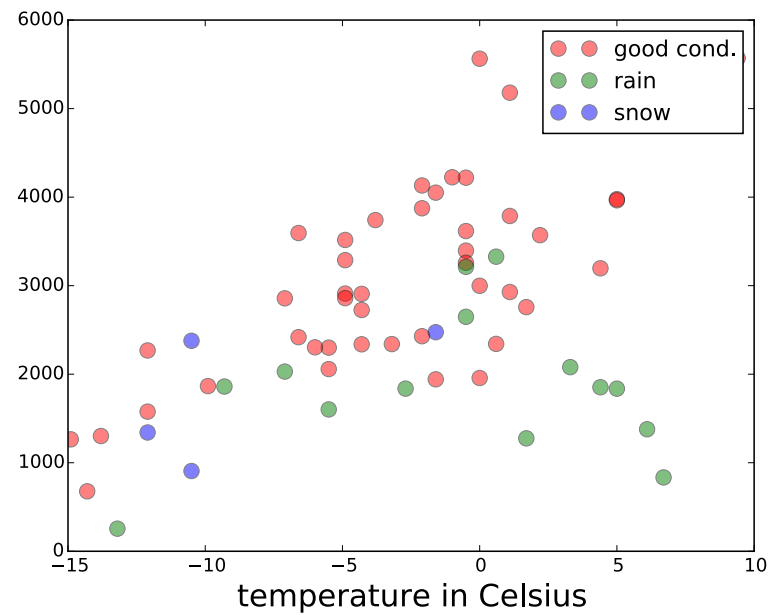

Total trips duration vs weather condition

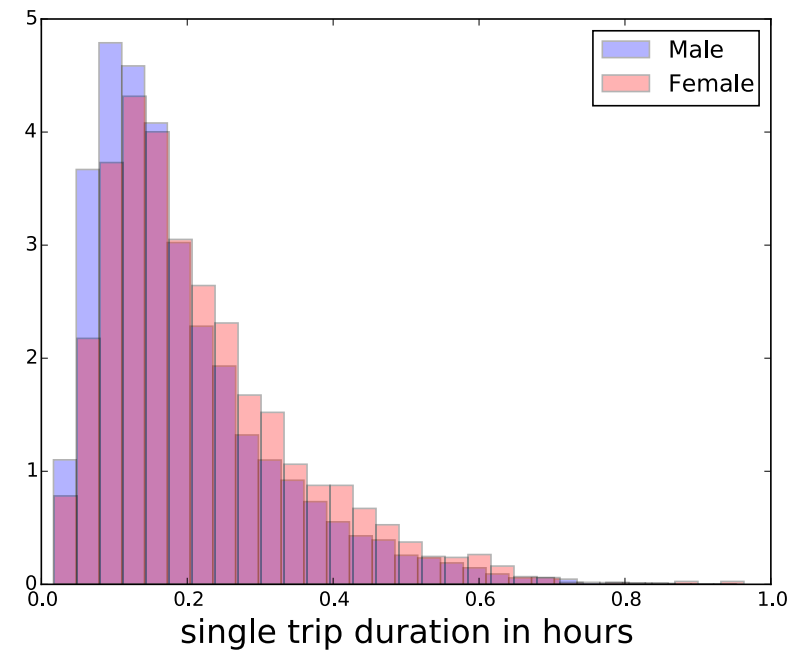

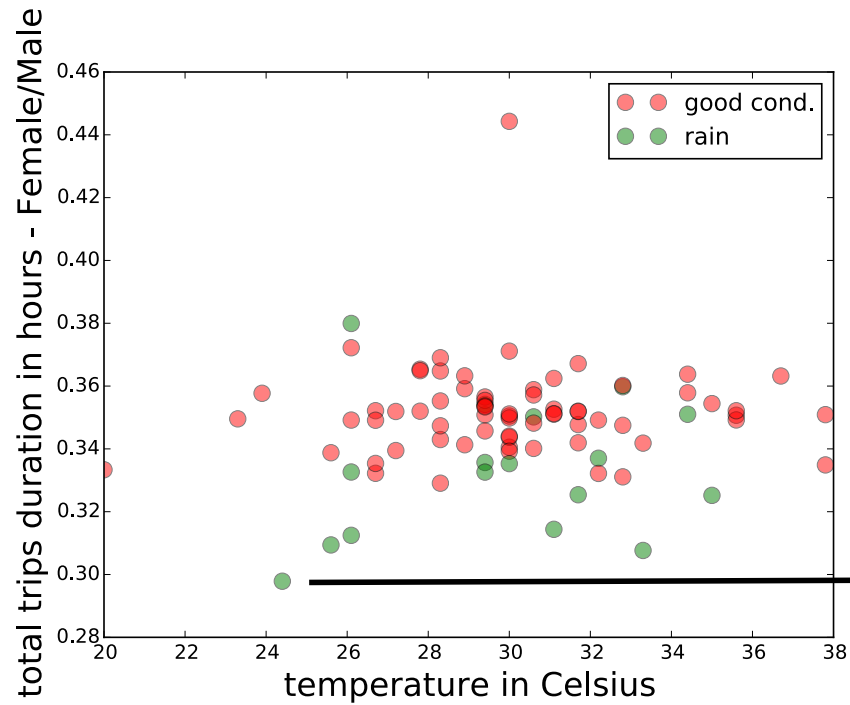

summer

winter

Trips duration - Female vs Male
